

10-year warranty

up to 27" screens

# Crucible

Crucible has been designed to improve learning outcomes for courses covering complex subjects, such as AI and cyber security, helping institutions prepare students to meet the growing demand for skilled workers in these areas.

Perfect for complex project work, lecturers can cast content to the top screen for students to refer to or move around the room to monitor practical work and assignments.

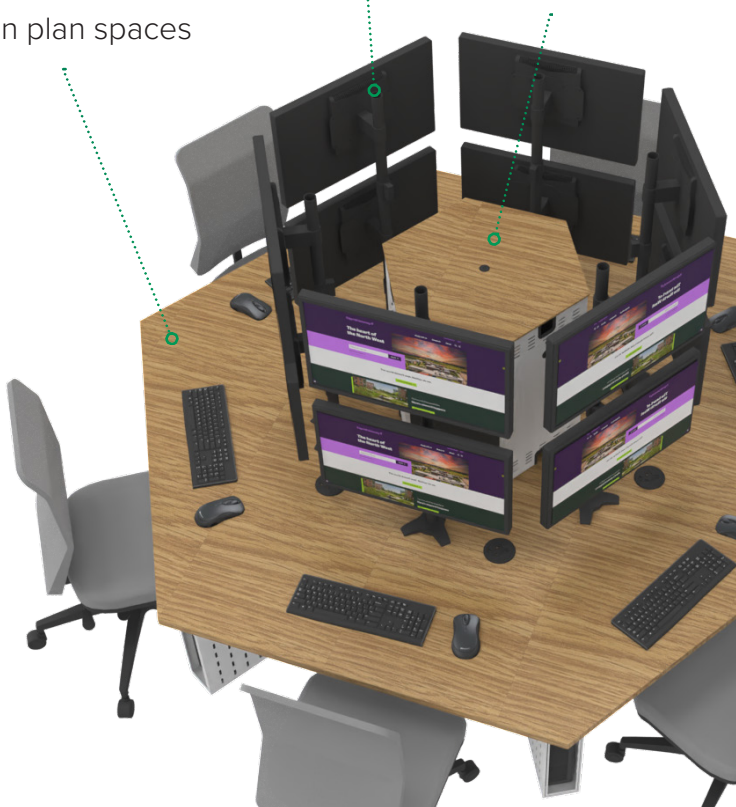
Repeater monitors can also remove the need for large, wall-mounted screens, helping to reduce infrastructure costs.

TOP-TEC

Gives students access to two screens without encroaching on worktop space

Cluster style shapes help the maximise the use of open plan spaces

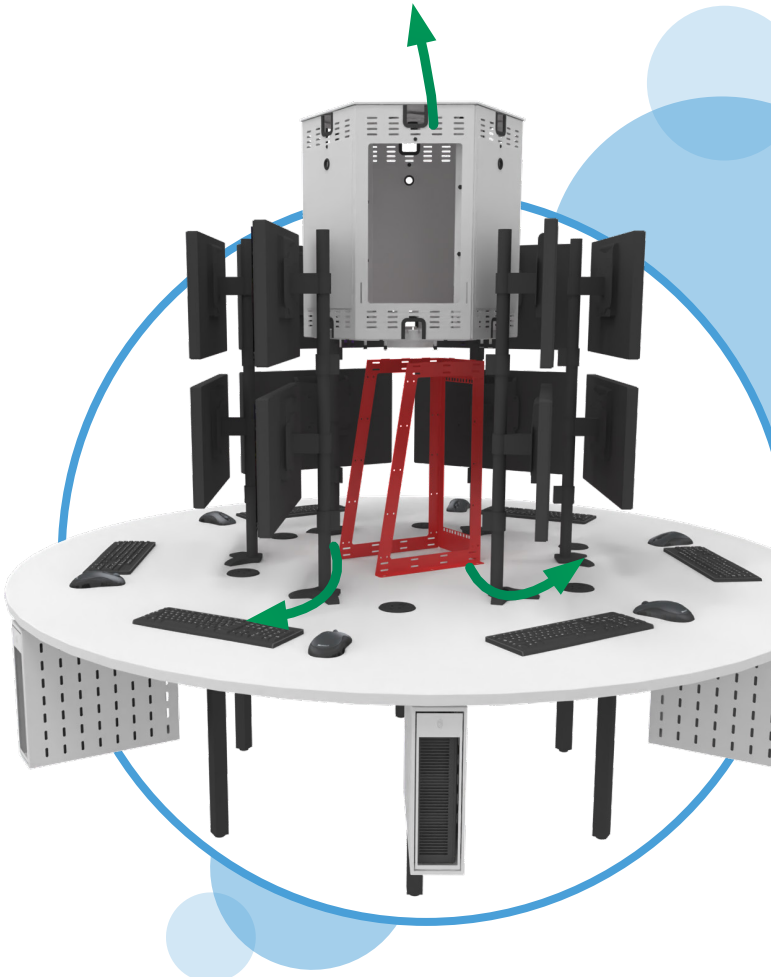
4U vertical AV rack



TOP-TEC

## Double the number of screens without reducing the number of seats

Give students access to 2x 27” screens without encroaching on space of next user



## Easy access to AV and cabling for maintenance

Swivel screen mounts + removable panels for easy access to rack space without removing screens

4U vertical AV rack + lift of section for maintenance
