

PRODUCT DETAILS

SYNERGY REVOLVE

Overview

SYNERGY REVOLVE allows the user to switch between the PLECTRUM AND REVERSE PLECTRUM shape to suit their preference and change the interaction of the group and the screen.

SYNERGY REVOLVE is ideal for the creation of Technology Enhanced Active Learning (TEAL) Environments and Agile Working Spaces that are used for lectures, group work and as interactive environments. TEAL environments have been shown to increase the attainment levels in education and the effectiveness of meetings in the commercial world.

Features

- Choice of standard paint & worktop finishes
- PC cage
- Standard data interface plate & connectivity
- Worktops are supplied with a depth of 25mm to 40mm
- Pivot point is concealed in the under-section of the worktop
- The neck remains static during rotation
- Hand-wheel controls table rotations and configurations without the need for any tools

Benefits

- Enriched boardroom environment for colleagues to discuss ideas and collaborate around screen
- Create an instant meeting space with minimal impact on infrastructure
- Facilitates group sizes between 2 to 6 people
