

PRODUCT DETAILS

MEDIA MAST RANGE

Overview

Combining contemporary design with AV security the MEDIA MAST provide a high quality means for mounting large display screens, ideal for reception spaces, lecture theatres and classrooms.

The MediaMast is built with a hidden internal cable management and is supplied in three sizes of 52U, 62U and 72U lengths that can be mounted floor-to-wall or floor-to-ceiling. Each mast is fitted with a versatile mounting bracket that secure the screen with two drill-resistant locks and provide up to 60 downwards tilt.

The MEDIA MAST range is available in three different confrontations; a standard column, a trolley for easy mobility of the screen, and a cabinet with 8U racking unit for transportation of media equipment.

Features

- Mounts screens up to 65" and up to 120kg
- Fixes from the floor-to-ceiling or floor-to-wall
- Hidden internal cable management
- Full access to cable ports
- 485-Y mounting bracket with 6° of downwards tilt

Benefits

- Customised to specific media and power supply configurations
- Different options available for a fixed or mobile display stand
- Added security with drill resistant locks
- Unobstrusive option for mounting a screen
