

## PRODUCT DETAILS

# TABSTORE

### Overview

TABSTORE are a range of multi-functional security trolleys designed for storing, charging and transporting tablet devices when they are not in use.

Created to manage the growing use of portable IT in education and business environments, the trolleys offer a dependable means for ensuring the devices remain fully functional. The TABSTORE is also available with a syncing solution called SYNC BOARD to keep all of your devices up to date and your data backed up.

### Features

- Range accommodates up to 40 tablet devices
