

PRODUCT DETAILS

TABDISPLAY

Overview

In modern business environments, organisations are increasingly utilising tablets within their workspace. With their easy-to-use interfaces, they offer a great way to provide information, take registers and display imagery.

To ensure the tablets physical and data assets are protected, we provide secure and stylish mounting solutions that allow devices to be fixed to the desk wall or monitor arms. Tablet model to be specified on order.

Features

- Available as a fixed or rotating unit
- Can be fixed to wall, desk or monitor mount
- Allows 24/7 charging of device, including on rotating version

Benefits

- Full functionality of the device
- Adaptable and able to accommodate new devices
- Excellent internal cable management
- Customised access to tablet functions i.e. home button, camera and audio jacks
