

## PRODUCT DETAILS

# LAPSTORE LITE

### Overview

LAPSTORE LITE is a multi-functional security trolley designed for storing, charging and transporting laptops, tablets and other portable devices when they are not in use.

The trolley is equipped with a plug socket for each individual device, individual compartments to separate each device and a three point locking mechanism on the front door to prevent unauthorised access.

LAPSTORE LITE is also available on a greatly reduced lead time.

### Features

- Accommodates up to 36 mobile/laptop devices
- Adjustable rack to fit different sizes
- Fully opening drawers with rigid dividers

### Benefits

- Supports all tablets/phones/USB chargeable devices
- Secures, recharges and syncs stored devices
- Lightweight, easy to transport
- Mains lead will safely disconnect if strained
