

PRODUCT DETAILS

CVC STAND

Overview

Positioned a short distance from the end of a meeting table and typically configured for wireless display broadcasting, the CVC STAND is perfect for touch screen applications. The video conferencing solution is ideal for narrow rooms where two screens are required.

The unit is mounted on castors concealed under the base which allow easy positioning and relocation. Available with our universal screen mount for 400x400 VESA.

An internal 5U top loaded rack mounted on drawer slides inside the unit, allowing you to integrate your AV equipment with easy access for engineers.

Features

- Integrated 5U rack for and AV and IT equipment
- Mounts one or two screens up to 65". Larger mounts available.

Benefits

- Improves the user experience when collaborating remotely
- Concealed castors allow easy re-positioning and relocation
- Configured for wireless display broadcasting, ideal in touch screen applications
