

PRODUCT DETAILS

ICT Desk

Overview

Our ICT Desks have been designed to provide durable, smart workstations that can function as either an ICT workspace or writing space. The desks are available in a number of configurations and can be adapted and arranged to fit a large variety of spaces. Options also include various levels of ICT security if required.

The desks features a strong steel sub-frame necessary for supporting a range of heavy ICT security equipment, whilst the integrated cable management keeps the worktop neat and clear from clutter. When the frames of desks are bolted together, a continuous work surface is produced.

Features

- Robust steel construction ensures desks are durable and dependable
- Beech veneer worktop with cantilever legs as standard
- Unique steel sub-frames capable of support heavy ICT equipment
- Cable ports for cable management
