

# TOP-TEC BRANDING

customer branding guidelines

# Branding Location

Voyager Expert Standard

The location of the branding on each Voyager model is similar with the exact positioning determined by the size and design of the logo to ensure balance and harmony with the unit.

The Expert and Studio models share the same external proportions and the Expert Mono should be used as a guide.

The branding is created using a high quality laser cut panel with coloured filters or printed panels to complete the design, according to the style of logo.

Your customer service contact can provide further information and assistance if required.

Voyager Contour Duet

Voyager2 Bravo Height Adjustable

Voyager Studio Duplex

# Branding Specification

We need your logo supplied in both EPS and DXF vector file formats. These formats provide us with the necessary information to produce all forms of corporate branding supplied by TOP-TEC. The usual procedures for product configuration approval will be undertaken with the purchase contact by your TOP-TEC customer service representative.

File Formats (both required please)

EPS (Encapsulated PostScript)

DWG or DXF (AutoCAD's Data Interchange Format or Data Exchange Format)

Files should be emailed to your customer service contact. Where there exists a choice of file size / quality then please send the largest / best.

## Examples

High quality cut outs of your logo with a choice of colours to illuminate your logo.

Combination of high quality cutting and printing of your logo with a choice of colours to illuminate your logo.

Other forms of corporate branding are available to customise the product.

TOP-TEC aims to keep technology in its place delivering stylish, secure workspaces for customers that require seamless and innovative solutions.
