TabStore, LapStore and NetStore Trolleys for Portable Computer Devices.

Sizing Information

For netbooks and laptops our trolleys hold the computers flat in drawers. For tablet computers our standard trolley accommodates devices vertically in a rack arrangement.

Laptop and Netbook Computers.

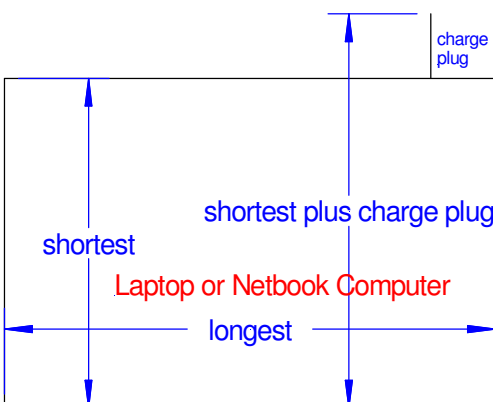

To make sure your trolley is designed correctly, we need some information about your devices. This is especially important as an increasing number of computers have large charging connection points and these need to be allowed for. Please select the appropriate image that represents your portable computer and fill in the sizes next the diagram, before returning the form to us.

Longest side (mm) _____

Longest including plug (mm) _____

Shortest side (mm) _____

Longest side (mm) _____

Shortest side (mm) _____

Shortest including plug (mm) _____

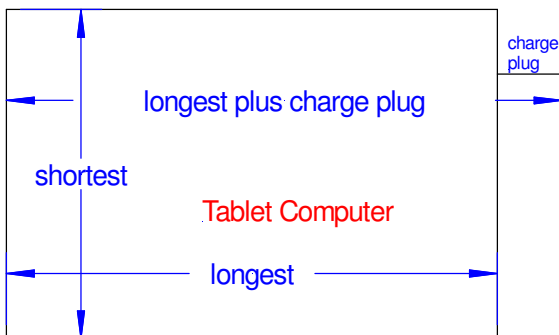

Tablet Computers.

To make sure your trolley is designed correctly, we need some information about your tablet devices. Please select the appropriate image that represents your tablets and fill in the sizes next the diagram, before returning the form to us.

Thickness (mm) _____

Including cover if being used

General

For your information our standard compartment sizes are shown below. As the manufacturer of these trolleys we can create special sizes if it is commercially viable for us both.

Please let us know what you are trying to achieve and we will do our best to help meet your requirements.
