EVOKE

EVOKE encourages communication between users, transforming from writing desk to IT station at the pull of a lever. The collaborative table also features a mast at the end of the table, enabling students and teachers to cast their work onto the screen for discussion or to present to the rest of the group.

EVOKE has been designed as a modular unit, allowing for easy installation into a variety of learning environments.

A discreet panel is built into the worktop to create a complete work surface, which reveals a screen, keyboard and mouse with the use of a lever. When out of use, all ICT equipment is hidden and stored in latched compartments.

Features

- Mounts up to 65" screens on the mast
- Universal 27" screen mount for flip-top pods
- Optional power modules
- Data interface plate option in the mast
- Versatile panel securely conceals screen, keyboard and mouse

Multi-purpose learning
Transforms from ICT workspace to traditional writing surface in seconds.

Collaborate & share!
Students and teachers can project their content onto the screen mast for presentation or discussion.

Integrated cable management
All cables are concealed via central tray and internally within the mast resulting in a complete all in one solution

Built to last
All our desks are manufactured from steel at our factory in Birmingham with a strong and robust design.

TOP-TEC

Models

Choice of 820mm(E82) or 920mm(E92) seat space
Choose from Tapered (T) / Rounded (R) / Square (S) end panels

EVOKE - 4 seat   ETT04
