

PRODUCT DETAILS

FORUM DESK

Our FORUM DESK range encourages communication in two formats, transforming from IT station to writing desk at the pull of a lever. Customised to the required number of users, our FORUM DESK is designed for collaborative working.

FORUM DESK offers both flexibility and security to any room installation. A discreet panel is built into the worktop to create a complete work surface, which reveals a screen, keyboard and mouse with the use of a lever. When out of use, all ICT equipment is hidden and stored in latched compartments.

Features

- Universal screen mount up to 27"
- Robust steel construction
- Versatile panel conceals screen, keyboard & mouse
- Customise each table with any combination of Round, Tapered or Square end panel styles

Multi-purpose learning
Transforms from ICT workspace to traditional writing surface in seconds.

Modular design
Available in modules allowing you to create any size workspace / bench you require.

Integrated cable management
Internal cable management via central tray + removable panels for easy maintenance access.

Built to last
All our desks are manufactured from steel at our factory in Birmingham with a strong and robust design.
