

Laptop Night Safe

Our Laptop Night Safes provide a simple and dependable means for ensuring expensive technology and confidential data are protected from theft in between use.

Ideal for overnight storage, the safes are produced specifically with strength in mind, manufactured out of high-grade steel and incorporating drill-resistant locks for each compartment. The safe bolts to the floor, wall or other fixed objects and once mounted, all fixings are concealed.

Features

- Available in 3-7 bay configurations.
- Robust security system for storing expensive laptops & IT equipment.
- Accommodates all laptops and tablet devices.
- Individual compartment for each device and its accessories.
- Each door is fitted with drill-resistant push button locks.
- Bolts to the wall, floor or worktop.
- Option available with holes for charging cables.
