

PRODUCT DETAILS

ALCOVE

The ALCOVE collection is an innovative range of fully upholstered dens. Great for both collaborative work and private concentration space within the workplace. The dens are highly customisable with options on power, lighting, upholstery and table tops.

Features

- To make the den super comfortable we use a combination of high density recycled foam and high quality polyurethane foam.
- The frame is made to last using beech and birch timber combined with birch plywood - fixed using PVA glue.
- Upholstered using top-stitch and twin needle details with the option of a contrasting show thread.
- The addition of castors allows the dens to be fully mobile, giving you even more flexibility within your space.

Create instant meeting spaces

Ideal solution for any open plan or agile learning spaces.

Easy relocation

The product sits on a sturdy steel base, allowing easy relocation.

Plug in and play!

Simple to install the ALCOVE dens are plug and play and are fully (and easily) relocatable, so they move when you move.

Our pods are designed with effective acoustics, helping limit external noise.

These dens are ideal for creating meeting spaces away from main office areas where staff can have high quality meetings that aren't effected by noise.
