

Left or right-hand door fitting

PRODUCT DETAILS

LockIT

5-year
warranty

LockIT is a secure cabinet perfect for storing your peripheral items such as microphones, remote controls and presentation clickers, helping protect your investment and keeping your equipment safe from theft and tampering.

Its compact design allows the user to fix the unit on top of or beneath a desk, with its side or rear face fitted directly to a wall, or the unit can be stacked or bolted together in rows.

The unit features a patented shelving system that has adjustable tabs and stops to prevent the equipment from moving around and are kept secure with high quality security locks.

Features

- Robust steel construction
- Left-handed or right-handed door
- Cable access holes top, bottom and sides
- Can be stacked

Prevent wireless microphone theft

Manufactured from steel with code locks included as standard to safely store your equipment.

Flexible to meet your requirements

Can be placed on or beneath a desk, fitted on the wall or stacked horizontally in rows.

Easy cable access + charging

Cable management through holes on the top, below and rear of the locker alongside room for charging stations securely mounted within the unit.
