
Orion | FREEDOM TO MOVE POWER TO LEARN

10-year mechanical warranty

2-year Animate

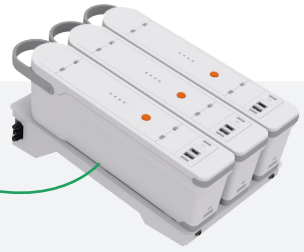
Orion is a battery powered, height adjustable podium, ideal for spaces where access to power outlets is limited or non-existent.

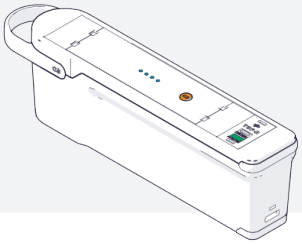
These flexible podiums help create technology enriched environments where ever you like!

Orion features a portable Animate Battery for BYOD device charging anywhere, eliminating the safety risk from trailing mains cables.

The battery can be hotswapped with a fully charged battery pack and charged in a separate dock, allowing for continual use

Animate charger base available for up to three batteries at a time





5 hrs charge time from empty to 100% full capacity

Effective cable management

Fully enclosed cable management below the worktop results in a tamper proof design.

Hot swappable batteries

Swap with a fully charged battery pack for continuous use.

TOP-TEC

TOP-TEC

INTEGRATED PORTABLE BATTERY

Power devices such as laptops, phones, tablets and other mobile electronics.

It's the same battery tech used in your cordless vacuum and your electric car!

With a full 240Wh capacity the Animate system is capable of fully charging...

4 Laptops or **10** Tablets or **20** Mobiles

No trailing mains cables

FREEDOM TO MOVE POWER TO LEARN

Create **Flexible Spaces** with truly agile technical furniture, powering devices, free from the concerns of tethers and trip hazards such as trailing mains cables.

TOP-TEC

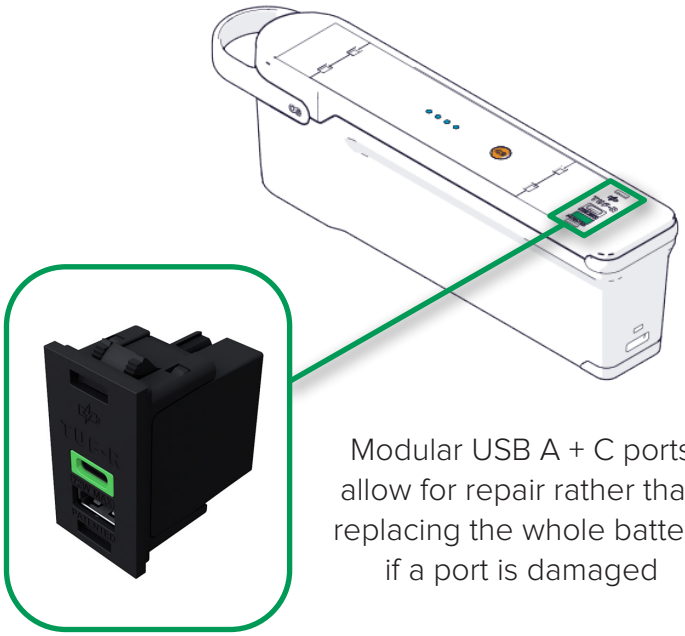
BUILD YOUR OWN SOLUTIONS

Our Animate system is designed to be adaptable, meaning you can add & remove batteries to meet your exact needs.

For example, an average person can utilise a single battery for an entire day of charging power, maybe even more!

But, what if you'd rather have even more freedom between charging times? The more batteries in the system, the higher the capacity to charge the users devices over longer periods of time. This time decreases as more users rely on the same source.

Please note: Orion also requires the use of a charging base or trolley, which must be purchased separately.



Modular USB A + C ports allow for repair rather than replacing the whole battery if a port is damaged

LITHIUM-ION BATTERY

240Wh scalable capacity

IEC & UL standards

5 hrs charge time from empty to 100% full capacity

High cycle durability Lithium battery

Supports 60W USB power delivery

USB-A and USB-C output options

5 year lifespan
