

Settle Pods

Settle is a thoughtfully designed wellbeing pod that creates a calm, private retreat within shared environments.

Its soft curves, acoustic materials and welcoming interior offer a comfortable place to pause, reset or take time away from surrounding activity. Equally suited to workplaces and learning environments, Settle helps create a more supportive setting where people can step away, regain focus and feel more at ease.

Features

- To make the den super comfortable we use a combination of high density recycled foam and high quality polyurethane foam.
- The addition of castors allows the dens to be fully mobile, giving you even more flexibility within your space.

Effective acoustics

Helps limit external noise, creating the ideal solution for any open plan space.

Customisable connectivity

Available with a wide range of power and data options to suit your requirements.

Plug in and play!

Simple to install the dens are plug and play and are fully (and easily) relocatable, so they move when you move.

Our pods are designed with effective acoustics, helping limit external noise.

These dens are ideal for creating meeting spaces away from main office areas where staff can have high quality meetings that aren't effected by noise.
